

EDUCATION

Year	Degree / Certificate	Institute
2024–Present	BS in Data Science and Applications	Indian Institute of Technology, Madras
2024–2028	B.Tech in Computer Science and Engineering	Hemvati Nandan Bahuguna Garhwal University
2023–2024	CBSE (Class XII)	Udaya Public School,Ayodhya
2021–2022	CBSE (Class X)	Udaya Public School,Ayodhya

KEY PROJECTS

- **Heart Disease Prediction System** | (Self Project) (November’25)
 - This project allowed me to explore the full workflow of an ML application – from data cleaning ,feature engineering,model training,hyperparamete tuning,all the way to building clean and intuitive interface for users to input their medical details.
 - Building this project strenthened my understanding of : Machine Learning Algorithm,Model evaluation metrics,Real worls dataset handling and building a end to end predictive system
- **Tetris Game** | (Self Project) (August’25)
 - The Classic Tetris Game using Python and Pygame.This project helped me strenthen my understanding of : Game loops and event handling ,Object Oriented programming and real time rendering with Pygame.
 - This Game includes score tracking , next block preview ,clean UI design and smooth Game play mechanics

CERTIFICATIONS

- **Foundational Level in Programming and Data Science – CODE** (October’24)

TECHNICAL SKILLS AND RELEVANT COURSES

- **Programming Languages:** C, Java, Python, MySQL
- **Libraries/Tools:** NumPy, Pandas, LLM, HTML, CSS, JavaScript

SOFT SKILLS

- Problem-solving and analytical thinking
- Effective communication
- Team collaboration
- Time management and adaptability

HOBBIES

- Travelling
- Singing
- Reading
- Exploring
